SUBJECT INDEX

A

Abuse, child, identification and protection, neurologist's role (case reports, Silber & Bell) 991 (Oct.)

Acetylcholine release, intermittent defect in myasthenia gravis (case report, Takamori & Gutmann) 47 (Jan.)

Adipsia in association with arachnoid cyst (case report, Bradley & Price) 930 (Sept.)

Alcoholism, acute and chronic myopathy associated with (case report, Pittman & Decker) 293 (Mar.)

Alexia, varieties of (case reports, Benson et al.) 951 (Sept.)

Amantadine for Parkinson's disease (Mann et al.) 958 (Sept.)

American Academy of Neurology
- abstracts of papers presented at annual meeting 392 (Apr.)
- Presidential address delivered at 23rd annual meeting, priorities, promise, and path ahead (Carter) 877 (Sept.)

Anesthesia, spinal, pseudomonas meningitis related to (case reports, Corbett & Rosenstein) 946 (Sept.)

Angiograms and microangiographic observations in experimental cerebral infarction in monkeys (Crowell et al.) 710 (July)

Antigen-antibody reactions, experimental autoallergic encephalomyelitis in rats (Ellison et al.) 778 (Aug.)

Arm, familial neuropathy (case reports, Smith et al.) 941 (Sept.)

Arnold-Chiari malformation, multiple cranial nerve deficits associated with (case reports, Sieben et al.) 673 (July)

Arteries
- basilar and common carotid, reactivity to alpha and beta stimulation in vitro in dogs and monkeys (Yashon et al.) 1085 (Nov.)
- basilar, autonomous activity, relationship to cerebral vascular spasm (Miller et al.) 1249 (Dec.)
- basilar branch occlusion, cause of pontine infarction (Fisher & Caplan) 900 (Sept.)
- carotid, clamping, effects of hypercapnia on cerebral blood flow in cerebrovascular insufficiency (Pistolese et al.) 95 (Jan.)
- carotid, correlation of bruits over, angiographically demonstrated lesions (Ziegler et al.) 860 (Aug.)
- carotid, fibromuscular dysplasia (case report, Pollock & Jackson) 1226 (Dec.)
- carotid, stenosis, carotid hemodynamics and ocular pulse in rabbits (Best) 982 (Oct.)
- cerebral territory infarction, circumscribed left posterior, right hemianopia with memory and color deficits (case report, Mohr et al.) 1104 (Nov.)

Aspergillus candidus, solid solitary granuloma of brain (case report, Linares et al.) 177 (Feb.)

Ataxia
- and areflexia, syndrome of acute idiopathic ophthalmoplegia with (case reports, Elizan et al.) 281 (Mar.)
- late-onset cerebellar, hereditary (case reports, Hoffman et al.) 771 (Aug.)

ATPase, sodium-potassium–activated, effect of diphenylhydantoin in rats (Lewin & Bleck) 647 (June)

Azathioprine, in treatment of chorea associated with systemic lupus erythematosus (case report, Heilman et al.) 963 (Sept.)

B

Biopsy
- brain and liver, biochemical and fine structural studies in aspartylglucosaminuria (Palo et al.) 1198 (Dec.)
- temporal artery, diagnostic value in fibromuscular dysplasia (case report, Pollock & Jackson) 1226 (Dec.)

Blood
- and cerebrospinal fluid, citrate and alpha-ketoglutarate (Haerer) 1059 (Oct.)
- hypercalcemia, electroencephalogram in (case reports, Cohn & Sode) 154 (Feb.)
- hyperemia and ischemia in experimental cerebral infarction, correlation of histopathology and regional blood flow in cats (Yamaguchi et al.) 565 (June)
- lymphotoxic activity in multiple sclerosis serum (van den Noort & Stjernholm) 783 (Aug.)
- plasma and cerebrospinal fluid levels of steroid analogues, comparison following intravenous and intrathecal injection in dogs (Parkhurst et al.) 906 (Sept.)
- venous, fibrinolytic activity, in muscular dystrophy (Menon et al.) 1019 (Oct.)

Bones, myelitis, acute transverse, associated with intravenous opium (Schein et al.) 101 (Jan.)

Brain

arachnoid cyst, adipsia in association with (case report, Bradley & Price) 930 (Sept.)

biopsy studies, biochemical and fine structural, in aspartylglucosaminuria (Palo et al.) 1198 (Dec.)

cerebellar degeneration and remittent peripheral neuropathy complicating lymphosarcoma (case report, Patten) 189 (Feb.)

cerebellar degeneration, hereditary, late-onset (case reports, Hoffman et al.) 771 (Aug.)

cerebellum, absence of guanine deaminase in cats (Dawson) 621 (June)

cerebral blood flow and metabolism during cardiopulmonary bypass, evidence of microembolic encephalopathy in dogs (Brennan et al.) 665 (July)

cerebral blood flow, central neurogenic control in monkeys (Meyer et al.) 247 (Mar.)

cerebral blood flow, effects of hypercapnia during clamping of carotid arteries in cerebrovascular insufficiency (Pistolese et al.) 95 (Jan.)

cerebral blood flow in posttraumatic encephalopathy, effect of ventriculoatrial shunt (Salmon & Timperman) 33 (Jan.)

cerebral hemispheric blood flow and metabolism, effect of hexobendine (Meyer et al.) 691 (July)

cerebral, infarction, experimental, effect of delayed hyperventilation (Soloway et al.) 479 (May)

cerebral lysosomal enzymes, experimental alterations of bound state in rats (Clendenon et al.) 103 (Feb.)

cerebral multiple sclerosis (Kahana et al.) 1179 (Dec.)

cerebral vascular spasm, relationship to autonomous activity in basilar artery (Miller et al.) 1248 (Dec.)

cerebral vasculitis, bacterial (case reports, Wise & Farmer) 195 (Feb.)

cerebromedullospinal disconnection, "locked-in" syndrome (case reports, Nordgren et al.) 1140 (Nov.)

decorticate versus decerebrate rigidity in subhuman primates and man (case report, Carey et al.) 738 (July)

disjugate ocular bobbing, relation to midbrain, pontine, and medullary function (case report, Newman et al.) 633 (June)

encephalitis, western, neurologic, intellectual, and psychologic sequelae, follow-up study of 35 cases (Earnest et al.) 969 (Sept.)

encephalitis, with radiographic evidence of medullary enlargement (Schain & Wilson) 537 (May)

encephalomyelitis, experimental autoallergic in rats, and cellular hypersensitivity in vitro (Ellison et al.) 778 (Aug.)

foramen of Munro, surface marking in echoencephalography (Veenhuyzen & Jongert) 603 (June)

G_{M2}-gangliosidosis, with total hexosaminidase deficiency (case report, Suzuki et al.) 313 (Apr.)

granuloma, solid solitary aspergillotic (case report, Linares et al.) 177 (Feb.)

leukodystrophies, lipidoses, and mucopolysaccharidoses, electrodiagnostic studies (case reports, Taori et al.) 303 (Mar.)

leukodystrophy, globoid cell, morphological and biochemical studies (Andrews et al.) 337 (Apr.)

leukodystrophy, metachromatic, diagnostic techniques (case report, Julius et al.) 15 (Jan.)

leukoencephalopathy, primary progressive multifocal (case report, Bolton & Rozdilsky) 72 (Jan.)

memory and hippocampal complexes (Drachman & Hughes) 1 (Jan.)

panencephalitis, subacute sclerosing, serum gamma globulins in 84 typical cases (Lowenthal et al.) 277 (Mar.)

parkinsonism-dementia of Guam, L-dopa treatment (Schnur et al.) 1236 (Dec.)

pontine infarction caused by basilar artery branch occlusion (Fisher & Caplan) 900 (Sept.)

right hemianopia with memory and color deficits in circumscribed left posterior cerebral artery territory infarction (case report, Mohr et al.) 1104 (Nov.)

scans in pituitary tumors (Evens et al.) 806 (Aug.)

steroid effect on enzyme response to cold injury in rats (Bingham et al.) 111 (Feb.)

structures, subcortical, psychoactive agents in dogs with bilateral lesions (Goldstein et al.) 847 (Aug.)

tissue, chromosomes of cells cultured in subacute sclerosing panencephalitis (Amato & Pellegrino) 553 (May)

ventricular system, ultrasonic measurement (Schlagenhauff et al.) 1134 (Nov.)

vestibular–temporal lobe connections demonstrated by induced seizures (case report, Cantor) 507 (May)

word blindness with intact central visual fields (case report, Goldstein et al.) 673 (Sept.)

Brown-Séquard syndrome and spinal epidural hematoma (case report, Russman & Kazi) 1066 (Oct.)

C

Calcium, electroencephalogram in hypercalcemia (case reports, Cohn & Sode) 154 (Feb.)

Cancer

lung, alveolar-bronchiolar cell, myopathy with leukemoid reaction secondary to (case report, Bruyn & Joshua) 1114 (Nov.)

lymphosarcoma, with remittent peripheral neuropathy and cerebellar degeneration involvement (case report, Patten) 189 (Feb.)

myopathy of embolic origin (case reports, Heffner) 840 (Aug.)

Carbenicillin for malignant external otitis (case reports, Schwarz et al.) 1077 (Nov.)

Carbohydrates

citrate and alpha-ketoglutarate, in cerebrospinal fluid and blood (Haerer) 1059 (Oct.)

mucopolysaccharidoses, lipidoses, and leukodystrophies, electrodiagnostic studies (case reports, Taori et al.) 303 (Mar.)

Carbon dioxide effects on cerebral blood flow during clamping of carotid arteries in cerebrovascular insufficiency (Pistolese et al.) 95 (Jan.)

Cells, chromosomes, cultured from brain tissue in subacute sclerosing panencephalitis (Amato & Pellegrino) 553 (May)

Cerebrospinal fluid

and blood, citrate and alpha-ketoglutarate (Haerer) 1059 (Oct.)

and plasma levels of steroid analogues, comparison following intravenous and intrathecal injection in dogs (Parkhurst et al.) 906 (Sept.)

clearance of lactate in dogs (Valenca et al.) 615 (June)

infusion test, evaluation for hydrocephalus (Nelson & Goodman) 1037 (Oct.)

prolonged post–lumbar puncture, leakage from lumbar subarachnoid space demonstrated by radioisotope myelography (case report, Lieberman et al.) 925 (Sept.)

sodium and potassium concentrations, effects of anoxia in monkeys (Meyer et al.) 889 (Sept.)

turnover in experimental hydrocephalic dogs (Sahar et al.) 218 (Mar.)

Cerebrovascular disorders

cerebral infarction, microvascular phenomena in monkeys (Crowell et al.) 710 (July)

hemorrhage, subdural, acute "spontaneous" (case reports, Talalla & McKissock) 19 (Jan.)

insufficiency, effects of hypercapnia on cerebral blood flow during clamping of carotid arteries (Pistolese et al.) 95 (Jan.)

ischemic, effect of hexobendine, preliminary clinical observations (Meyer et al.) 691 (July)

Charcot-Marie-Tooth disease, electrodiagnostic study, evaluation of facial and trigeminal nerves (Kimura) 745 (July)

Chlorobiphenyl poisoning, peripheral neuropathy (Murai & Kuroiwa) 1173 (Nov.)

Chromosomes, cells, cultured from brain tissue in subacute sclerosing panencephalitis (Amato & Pellegrino) 553 (May)

Circulation

blood flow currents in spinal cord arteries (Di Chiro & Fried) 1088 (Nov.)

carotid hemodynamics and ocular pulse in carotid stenosis in rabbits (Best) 982 (Oct.)

cerebral blood flow, effects of hypercapnia during clamping of carotid arteries in cerebrovascular insufficiency (Pistolese et al.) 95 (Jan.)

cerebral blood flow in posttraumatic encephalopathy, effect of ventriculoatrial shunt (Salmon & Timperman) 33 (Jan.)

cerebral, central neurogenic control in monkeys (Meyer et al.) 247 (Mar.)

cortical, and vascular reactivity, effects of stimulation of cervical sympathetic nerves in cats (Kobayashi et al.) 297 (Mar.)

hyperemia and ischemia in experimental cerebral infarction, correlation of histopathology and regional blood flow in cats (Yamaguchi et al.) 565 (June)

Congenital disorders

blepharophimosis, joint contractures, and muscular hypotonia (case report, Fitch et al.) 1214 (Dec.)

failure of myelinization: Pelizaeus-Merzbacher disease? (case report, Schneck et al.) 817 (Aug.)

hip dislocation, with central core disease in two families (case reports, Armstrong et al.) 369 (Apr.)

Convulsions, action of penicillin, and penicillinase in cats (Gutnick & Prince) 759 (July)

Corticosteroids, comparison of plasma and cerebrospinal fluid levels of steroid analogues following intravenous and intrathecal injection in dogs (Parkhurst et al.) 906 (Sept.)

Corticotropin in myasthenia gravis, effects, indications, limitations (Namba et al.) 1008 (Oct.)

Cysts

arachnoid, adipsia in association with (case report, Bradley & Price) 930 (Sept.)

extra-axial, and Dandy-Walker syndrome, cystic lesions of posterior fossa in infants, comparison of clinical, radiological, and pathological findings (case reports, Haller et al.) 494 (May)

D

Dandy-Walker syndrome and extra-axial cysts, cystic lesions of posterior fossa in infants, comparison of clinical, radiological, and pathological findings (case reports, Haller et al.) 494 (May)

Death

rate and migration in multiple sclerosis (Kurtzke et al.) 1186 (Dec.)

unexpected, in young epileptics (Hirsch & Martin) 682 (July)

Diabetes, neuropathy, electrodiagnostic study, evaluation of facial and trigeminal nerves (Kimura) 745 (July)

Diet, protein-calorie malnutrition, neuromuscular status (Sachdev et al.) 801 (Aug.)

Dihydroxyphenylalanine therapy, clinical and cerebrospinal fluid changes (Sharpless et al.) 540 (May)

Dilantin® (diphenylhydantoin)

and phenobarbital blood levels in epileptic children (Buchanan & Allen) 866 (Aug.)

in modification of experimental seizures and anticonvulsant efficacy by peripheral stimulation in cats (Louis et al.) 329 (Apr.)

Diphenylhydantoin

and phenobarbital blood levels in epileptic children (Buchanan & Allen) 866 (Aug.)

and phenobarbital, concurrent administration, lack of interference effect (Booker et al.) 383 (Apr.)

effect of methylphenidate on disposition (Mirkin & Wright) 1123 (Nov.)

effect on sodium-potassium–activated ATPase in rat cortex (Lewin & Bleck) 647 (June)

in modification of experimental seizures and anticonvulsant efficacy by peripheral stimulation in cats (Louis et al.) 329 (Apr.)

Down's syndrome, infantile spasms associated with 5-hydroxytryptophan administration (case reports, Coleman) 911 (Sept.)

Drugs

for rigidity in Huntington's chorea (case reports, Bird & Paulson) 271 (Mar.)

immunosuppression, low-dose, viral infections in multiple sclerosis patients (Davis et al.) 765 (July)

interaction of methylphenidate and diphenylhydantoin (Mirkin & Wright) 1123 (Nov.)

psychoactive, in dogs with bilateral lesions in subcortical structures (Goldstein et al.) 847 (Aug.)

see under specific entries

Duchenne muscular dystrophy
new approach for carrier detection (Ionasescu et al.) 703 (July)
superprecipitation and adenosine triphosphatase activity of myosin B (Furukawa & Peter) 920 (Sept.)
Dyslexia, developmental, in adults (case reports, Perlo & Rak) 1231 (Dec.)

E

Ear, otitis, malignant external, neurologic complications (case reports, Schwarz et al.) 1077 (Nov.)
Echoencephalograms
A-mode midline, development of automated techniques (White & Hudson) 140 (Feb.)
pulsatile, correlations with K-complexes and epileptic discharges (Fernandez et al.) 225 (Mar.)
surface marking the foramen of Monro (Veenhuyzen & Jongert) 603 (June)
ultrasonic measurement of cerebral ventricular system (Schlagenhauff et al.) 1134 (Nov.)
Edrophonium chloride tonography, reevaluation in diagnosis of myasthenia gravis (Wray & Pavan-Langston) 586 (June)
Electroencephalograms
abnormalities, temporal, and aging (Drachman & Hughes) 1 (Jan.)
activation with intravenous methohexital in psychomotor epilepsy (Musella et al.) 594 (June)
in hypercalcemia (case reports, Cohn & Sode) 154 (Feb.)
pseudoperiodic lateralized paroxysmal discharges (Markand & Daly) 975 (Oct.)
Electromyograms
in hypertrophic obstructive cardiomyopathy (Hootsmans & Meerschwam) 810 (Aug.)
in lipidoses, mucopolysaccharidoses, and leukodystrophies (case reports, Taori et al.) 303 (Mar.)
in mass facial movements, evidence for misdirection (Teasdall & Salman) 652 (June)
masticator, in trigeminal neuralgia (Saunders et al.) 1221 (Dec.)
neurophysiologic studies in type B botulism (case report, Cherington & Ginsberg) 43 (Jan.)
Electron-microscopic study of inclusion body in human rabies (Leech) 91 (Jan.)
Encephalitis
brainstem, with radiographic evidence of medullary enlargement (Schain & Wilson) 537 (May)
human rabies, electron-microscopic study of inclusion body (Leech) 91 (Jan.)
western, neurologic, intellectual, and psychologic sequelae, follow-up study of 35 cases (Earnest et al.) 969 (Sept.)
Encephalopathy, microembolic, evidence during cardiopulmonary bypass in dogs (Brennan et al.) 665 (July)
Enzymes
cerebral lysosomal, experimental alterations of bound state in rats (Clendenon et al.) 103 (Feb.)
glutamic acid decarboxylase in Parkinson's disease and epilepsy (McGeer et al.) 1000 (Oct.)
phosphorylase, increased activity in muscles in hyperparathyroid disease (case report, Cape) 638 (June)
response to cold injury, steroid effect in rat brain (Bingham et al.) 111 (Feb.)
Epilepsy
and Parkinson's disease, glutamic acid decarboxylase (McGeer et al.) 1000 (Oct.)
controlled study of folic acid (case report, Norris & Pratt) 659 (June)
diphenylhydantoin and phenobarbital blood levels (Buchanan & Allen) 866 (Aug.)
discharges, correlations with K-complexes, pulsatile echoencephalography (Fernandez et al.) 225 (Mar.)
experimental, modification of seizures and anticonvulsant efficacy by peripheral stimulation in cats (Louis et al.) 329 (Apr.)
intractable childhood, medium-chain triglycerides as therapy (Huttenlocher et al.) 1097 (Nov.)
precipitated by hot water immersion (case report, Stensman & Ursing) 559 (May)
psychomotor, electroencephalographic activation with intravenous methohexital (Musella et al.) 594 (June)
unexpected death in young (Hirsch & Martin) 682 (July)
Epinephrine HCl, in vitro isometric reactivity of dog and monkey basilar arteries (Yashon et al.) 1085 (Nov.)
Eyes
blepharophimosis, joint contractures, and muscular hypotonia (case report, Fitch et al.) 1214 (Dec.)
corneal reflex latency (Thatcher & Van Allen) 735 (July)
disjugate bobbing, relation to midbrain, pontine, and medullary function (case report, Newman et al.) 633 (June)
nystagmus, positional, early sign in medulloblastoma (case reports, Grand) 1157 (Nov.)
ophthalmoplegia, acute idiopathic syndrome, with ataxia and areflexia (case reports, Elizan et al.) 281 (Mar.)
pulse, and carotid hemodynamics in carotid stenosis in rabbits (Best) 982 (Oct.)
pupillary abnormalities associated with tumors of pineal region (Seybold et al.) 232 (Mar.)

right hemianopia with memory and color deficits in circumscribed left posterior cerebral artery territory infarction (case report, Mohr et al.) 1104 (Nov.)
vertical gaze, progressive paresis in lipid storage disease (case reports, Grover & Naiman) 896 (Sept.)
word blindness with intact central visual fields (case report, Goldstein et al.) 873 (Sept.)

F

Face, mass movements, electromyographic evidence for misdirection (Teasdall & Salman) 652 (June)
Fats and lipids
congenital failure of myelinization: Pelizaeus-Merzbacher disease? (case report, Schneck et al.) 817 (Aug.)
lipid storage disease, progressive paresis of vertical gaze (case reports, Grover & Naiman) 896 (Sept.)
lipidoses, electrodiagnostic studies (case reports, Taori et al.) 303 (Mar.)
lipoid proteinosis, neurologic involvement (case reports, Newton et al.) 1205 (Dec.)
medium-chain triglycerides for intractable childhood epilepsy (Huttenlocher et al.) 1097 (Nov.)

G

Gentamicin for malignant external otitis (case reports, Schwarz et al.) 1077 (Nov.)
Germine monoacetate in treatment of botulism in rabbits (Cherington & Greenberg) 966 (Sept.)
Globulins, serum gamma, subacute sclerosing panencephalitis, in 84 typical cases (Lowenthal et al.) 277 (Mar.)
G_{M2}-gangliosidosis with total hexosaminidase deficiency (case report, Suzuki et al.) 313 (Apr.)
Guillain-Barré syndrome, electrodiagnostic study, evaluation of facial and trigeminal nerves (Kimura) 745 (July)

H

Haloperidol in treatment of chorea associated with systemic lupus erythematosus (case report, Heilman et al.) 963 (Sept.)
Head trauma, physically abused child (case reports, Silber & Bell) 991 (Oct.)
Heart
cardiac arrest, transient, vulnerability of human spinal cord (case reports, Gilles & Nag) 833 (Aug.)
cardiomyopathy, hypertrophic obstructive, electromyography (Hootsmans & Meerschwam) 810 (Aug.)
cardiopulmonary bypass, effects on brain in dogs (Brennan et al.) 665 (July)
failure and hydrocephalus in infants caused by arteriovenous malformation of vein of Galen (case reports, Montoya et al.) 1054 (Oct.)
Hemorrhage, subdural, acute "spontaneous" (case reports, Talalla & McKissock) 19 (Jan.)
Hereditary disorders
familial brachial neuropathy (case reports, Smith et al.) 941 (Sept.)
familial dysautonomia, nervous system, sensory, motor, and autonomic dysfunction (Pearson et al.) 486 (May)
familial myopathy with probable lysis of myofibrils in type I fibers (case reports, Cancilla et al.) 579 (June)
heredofamilial tremor, mutual limb stabilization in relation to tremor characteristics in (Barlow & Schwab) 78 (Jan.)
Huntington's chorea, rigid form (case reports, Bird & Paulson) 271 (Mar.)
late-onset cerebellar degeneration (case reports, Hoffman et al.) 771 (Aug.)
myasthenia gravis and hyperthyroidism in two sisters (case reports, Namba & Grob) 377 (Apr.)
neurovisceral storage disease, late infantile, with curvilinear bodies (case reports, Andrews et al.) 207 (Mar.)
Urbach-Wiethe's disease, neurologic involvement (case reports, Newton et al.) 1205 (Dec.)
Hexobendine, effect on cerebral hemispheric blood flow and metabolism (Meyer et al.) 691 (July)
Hip dislocation, congenital with central core disease in two families (case reports, Armstrong et al.) 369 (Apr.)
Hormones, progesterone, in menstrual migraine (Somerville) 853 (Aug.)
Hospitals, municipal teaching, social implications of neurological care (Richter & Challenor) 627 (June)
Huntington's chorea
infrared spectroscopy of urine (Shepherd et al.) 642 (June)
rigid form (case reports, Bird & Paulson) 271 (Mar.)
Hydrocephalus
and heart failure, in infants, caused by arteriovenous malformation of the vein of Galen (case reports, Montoya et al.) 1054 (Oct.)
evaluation of cerebrospinal fluid infusion test (Nelson & Goodman) 1037 (Oct.)
experimental, cerebrospinal fluid turnover in dogs (Sahar et al.) 218 (Mar.)
normotensive, and chronic Listeria monocytogenes meningitis (case report, Heck et al.) 263 (Mar.)
obstructive, physiological studies on development in monkeys (Levin et al.) 238 (Mar.)

5-Hydroxytryptophan, infantile spasms associated with administration in patients with Down's syndrome (case reports, Coleman) 911 (Sept.)
Hypotension, postural, in Shy-Drager syndrome, necropsy (case report, Thapedi et al.) 26 (Jan.)

I

Infarction
circumscribed left posterior cerebral artery, right hemianopia with memory and color deficits (case report, Mohr et al.) 1104 (Nov.)
pontine, caused by basilar artery branch occlusion (Fisher & Caplan) 900 (Sept.)
venous, of spinal cord (case report, Hughes) 794 (Aug.)
Infarction, cerebral
experimental, angiographic and microangiographic observations in monkeys (Crowell et al.) 710 (July)
experimental, effect of delayed hyperventilation (Soloway et al.) 479 (May)
experimental, hyperemia and ischemia, correlation of histopathology and regional blood flow in cats (Yamaguchi et al.) 565 (June)
Infections
cryptococcal, intraventricular granuloma (case report, Vijayan et al.) 728 (July)
otitis, malignant external, neurologic complications (case reports, Schwarz et al.) 1077 (Nov.)
pseudomonas meningitis related to spinal anesthesia (case reports, Corbett & Rosenstein) 946 (Sept.)
Vibrio fetus, neurology of (case report, Gunderson & Sack) 307 (Mar.)
viral, in multiple sclerosis patients on low-dose immunosuppression (Davis et al.) 765 (July)
Intoxication
alcohol, acute and chronic myopathy associated with (case report, Pittman & Decker) 293 (Mar.)
alcoholism, chronic, hypokalemic myopathy (case reports, Martin et al.) 1160 (Nov.)
botulism and germine in rabbits (Cherington & Greenberg) 966 (Sept.)
botulism, type B, neurophysiologic studies (case report, Cherington & Ginsberg) 43 (Jan.)
chlorobiphenyl poisoning, peripheral neuropathy (Murai & Kuroiwa) 1173 (Nov.)
opium, intravenous, acute transverse myelitis associated with (Schein et al.) 101 (Jan.)
Isoprinosine in amyotrophic lateral sclerosis (Fareed & Tyler) 937 (Sept.)
Isoxsuprine HCl, in vitro isometric reactivity of dog and monkey basilar arteries (Yashon et al.) 1085 (Nov.)

J

Joint contractures, blepharophimosis, and muscular hypotonia (case report, Fitch et al.) 1214 (Dec.)

K

Krabbe's disease, morphological and biochemical studies (case reports, Andrews et al.) 337 (Apr.)
Kwashiorkor, neuromuscular status (Sachdev et al.) 801 (Aug.)

L

L-dopa
and error correction time in Parkinson's disease (Angel et al.) 1255 (Dec.)
effects in Parkinson's disease, double-blind study (Nakano & Tyler) 1069 (Oct.)
metabolites, reversal of reserpine syndrome in reserpinized rats (Ericsson et al.) 1023 (Oct.)
metabolites, sensitivity studies in reserpinized rats (Ericsson & Wertman) 1129 (Nov.)
therapy, clinical and cerebrospinal fluid changes (Sharpless et al.) 540 (May)
treatment in parkinsonism-dementia of Guam (Schnur et al.) 1236 (Dec.)
Lipids see Fats and lipids
Liver biopsy studies, biochemical and fine structural, in aspartylglucosaminuria (Palo et al.) 1198 (Dec.)
"Locked-in" syndrome
cerebromedullospinal disconnection (case reports, Nordgren et al.) 1140 (Nov.)
chronic, physiological observations (case report, Feldman) 459 (May)
Lung, alveolar-bronchiolar cell carcinoma, myopathy with leukemoid reaction (case report, Bruyn & Joshua) 1114 (Nov.)
Lymph gland, lymphotoxic activity in multiple sclerosis serum (van den Noort & Stjernholm) 783 (Aug.)

M

Medical care, social implications of neurological care in municipal teaching hospital (Richter & Challenor) 627 (June)
Meningitis
chronic Listeria monocytogenes, and normotensive hydrocephalus (case report, Heck et al.) 263 (Mar.)
pseudomonas, related to spinal anesthesia (case reports, Corbett & Rosenstein) 946 (Sept.)
Menstruation, migraine, role of progesterone (Somerville) 853 (Aug.)
Metabolism
